

# YANNI ABI

Experienced Technology Consultant transitioning to a dynamic role as a Web Developer. Proficient at diagnosing a wide range of hardware and software solution-related issues, and now applying these skills to create exceptional web solutions. An excellent team player with a strong focus on client and stakeholder interactions. Demonstrated history of being an integral part of technical teams, driving effective solutions that deliver immediate impact and contribute to long-term success, now extending this expertise to web development projects.

## WORK EXPERIENCE

### Web Development Intern

**LIT Infotech, United Kingdom (Remote) | 2023-Present**

Specializing in front-end development for web applications, with a primary focus on enhancing navigation, optimizing forms, and elevating overall user experience.

### Technology Consultant - Emerging Technologies

**Hewlett-Packard Enterprise, Bangalore | 2022-2023**

- Deployed and tailored Kubernetes-based clusters both on-premise and on the cloud.
- Produced feasibility reports, collaborating with stakeholders to tailor container platforms to customer needs.
- Developed and documented installation procedures, ensuring rigorous testing before deployment.
- Offered expert assistance in monitoring HPE Ezmeral and Data Fabric for clients.
- Diagnosed and resolved container platform configuration issues by collaborating with third-party support.
- Daily Kubernetes cluster monitoring, generating health-check reports and addressed discrepancies.

### CIN Specialist

**Hewlett-Packard Enterprise, Bangalore | 2021 - 2022**

- Resolved intricate hardware and software issues related to network virtualization interconnects, pass-through modules, and hardware-software monitoring platforms by performing deep-dive analysis including platform support for the virtualization software.
- Analyzed diverse hardware and software logs to pinpoint root causes, leveraging extensive knowledge base resources to implement optimal solutions.
- Partnered with Engineering and Development teams to expedite resolutions for complex cases to collaborate quarterly and monthly reports.
- Acted as a single point of contact (SPOC) for facilitating communication between Accounts, Engineering, and Support Teams.
- Conducted comprehensive training sessions for new Engineers, covering both technology and process aspects.

### Technical Solutions Consultant

**Netconnect Global Pvt Ltd. | 2019 - 2021**

Debugged and resolved hardware and software issues related to HPE Industrial Standard Servers, chassis, pass-through modules, and UPS.

### Technical Support Engineer

**HP Inc., Bangalore | 2017 - 2019**

Effectively resolved issues pertaining to a wide range of commercial HP hardware products, including Workstations, Notebooks, Desktops, All-In-One PCs, Tablets, Docking Stations, and the Elite X3 Smart Phone.
